

HYDRAULIC IRONWORKER

DESCRIPTION

We are one of the most trusted Industrial Ironworker Suppliers in Gujarat; we are famous for our best quality machines, their stout features and their fabulous and precise output. Our Hydraulic Ironworker is in great demands for its tensile strength, corrosion free nature and optimum results which it gives year after year without fail. Same is the case with our Mechanical Ironworker Machines which are known worldwide for their undoubted quality and best performance which is due to its finest parts and lubrication system which ensures smooth production.

Maruti Hydraulic Iron Worker is designed to give an effective solution to all the cutting and punching problems of flat and Section with satisfactory work quality from robust and compact machine.

Unique compact design by using ultrasonically tested steel plates.

Five work station catering '7' different operation.

Parallel operation of punching station with other work station gives higher productivity.

Direct shearing avoids any waste of materials.

FEATURE

A wide range of designs and tonnages

Custom tooling for specific applications

Dependable performance

Quality materials and construction Competitive pricing

SPECIFICATIONS

All dimensions are in mm

Power supply 400/440 volts, 3 phase, 50 cycles

Stringent quality checks for easy and smooth operation

TECHNICAL SPECIFICATIONS

Capacity	
Shear for Flat	150 x 16, 250 x 12
Angle	100 x 100 x 10
Channel	100 x 50
Round	38
Square Bar	38
Punching	40 x 8
40 x 8	40 x 8
General Specification	
Motor	5 Hp
No. of Stroke/min (20mm travel for punching side)	1580 mm
Throat Depth	250
Overall Dimension	1250 x 750 x 1600
